Belly Dance is an ancient form of dance with origins in the Orient, India and, of course, the Middle East. Although many today perceive it as a dance intended to entertain men, traditionally it was and is still performed by and for women to celebrate special occasions. The undulating movements and focus on the hips, abdominals and chest suggest a strong connection to female fertility, in both conception and labour. This fabulous 2hr workshop is perfect for anyone who wants to give belly dancing a try or just have some fun!

Anyone can laugh for no reason, without relying on humor, jokes or comedy. Laughter is simulated as a body exercise in a group; with eye contact and childlike playfulness, it soon turns into real and contagious laughter. The concept of Laughter Yoga is based on a scientific fact that the body cannot differentiate between fake and real laughter. One gets the same physiological and psychological benefits. Laughter yoga has been proven to reduce stress and increase one's overall sense of happiness and well being. Please bring your own yoga mat.
